

DAUKSHYA EXIM PVT LTD

EXPORT PRODUCT CATALOG — PREMIUM INDIAN MILLETS & NUTRI-CEREALS

ISO 9001:2015 Certified | FIEO RCMC Registered Exporter | Government Recognized Export House

Export Category: Ancient Grains & Smart Nutri-Cereals (Millets)

Origin: India | **Quality Assurance:** De-hulled, Machine Cleaned, Sortex Cleaned & Insect-Free.

This catalog provides comprehensive export specifications for our complete portfolio of major and minor Indian millets.

1. Pearl Millet (Bajra)

Bold grayish-green grains rich in essential iron, protein, and dietary fiber. Ideal for commercial flour milling, health foods, and animal feed blends.

Parameter	Specification Value	Parameter	Specification Value
Purity (Sortex)	99% Minimum	Moisture	12% Maximum
Foreign Matter	1% Maximum	Protein	11.5% Minimum

2. Finger Millet (Ragi)

Rich reddish-brown grain containing exceptionally high natural calcium and fiber. Widely used for infant food formulations, health drinks, and gluten-free baking.

Parameter	Specification Value	Parameter	Specification Value
Purity	98.5% – 99% Min	Moisture	12% Maximum
Calcium Content	344 mg / 100g	Foreign Matter	1% Maximum

3. Sorghum (Jowar)

Creamy-white bold grains free from tannins. High antioxidant content, perfect for gluten-free flour blends, popping, and healthy breakfast foods.

Parameter	Specification Value	Parameter	Specification Value
Purity (Sortex)	99% Minimum	Moisture	12% Maximum
Discolored Grains	1.5% Maximum	Protein	10% Minimum

4. Foxtail Millet (Kangni)

Golden-yellow de-hulled grain loaded with complex carbohydrates, iron, and fiber. Popular for ready-to-cook breakfast options and gluten-free cereals.

Parameter	Specification Value	Parameter	Specification Value
Purity	99% Minimum	Moisture	11% – 12% Max
Admixture	1% Maximum	Crude Fiber	8% Minimum

5. Kodo Millet

High in polyphenols and dietary fiber with a low glycemic index, making it ideal for health-conscious food products and diabetic-friendly formulations.

Parameter	Specification Value	Parameter	Specification Value
Purity	98.5% – 99% Min	Moisture	11% Maximum
Foreign Seeds	0.5% Maximum	Dietary Fiber	9% Minimum

6. Little Millet (Kutki)

Small, round, cream-colored de-hulled grain rich in B-vitamins and iron. Fast-cooking, healthy rice alternative grain.

Parameter	Specification Value	Parameter	Specification Value
Purity (Sortex)	99% Minimum	Moisture	11% Maximum
Broken Grains	1% Maximum	Iron Content	9.3 mg / 100g

7. Barnyard Millet (Sanwa)

Nutrient-dense grain with rich iron and high digestible protein. Low in calories with high dietary fiber content.

Parameter	Specification Value	Parameter	Specification Value
Purity	99% Minimum	Moisture	10% – 11% Max
Foreign Matter	0.5% Maximum	Protein	11% Minimum

8. Proso Millet (Chena)

Smooth, pale yellow round grain containing high protein and mineral content. Used for health foods, specialty flour blends, and bird seed mixes.

Parameter	Specification Value	Parameter	Specification Value
Purity (Sortex)	99% Minimum	Moisture	12% Maximum
Foreign Matter	1% Maximum	Protein	12.5% Minimum

EXPORT PACKAGING & COMMERCIAL COMPLIANCE

Packaging Options:	500g, 1kg, 5kg Retail Stand-up Pouches 25kg, 50kg PP / Jute Bags / Vacuum Sealed Bags
Private Labeling:	Custom Buyer Branding & OEM Packaging Available
Container Stuffing:	22 to 25 Metric Tons per 20ft FCL (Full Container Load)
Regulatory Approvals:	FSSAI, ISO 9001:2015, FIEO RCMC Registered Exporter, Phytosanitary Certificate, Certificate of Origin
Quality Inspection:	SGS / Intertek / Geo-Chem Third-Party Quality Inspection Prior to Vessel Loading
